

The *NH Alcohol and Drug Treatment Locator*, www.nhtreatment.org, is a new website directory now available for locating alcohol and drug treatment service providers in New Hampshire who offer assessments, withdrawal management, outpatient counseling, residential treatment, recovery supports and other services.

The on-line locator allows providers and the general public to identify services and narrow search results by location, service type, population/specialties served, and/or payer.

Search results may be printed to include provider contact information for referral organizations to share. Additionally, current listings may be updated and new listings can be added to the directory.

Promotional materials are also available to share with colleagues, patients and in waiting rooms including flyers, business cards, and magnets. Please consider using this resource to help your patients get the help they may need.
